Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief of Logistics

FROM : Chief, Transportation Division

SUBJECT: Weekly Activity Report

1. GENERAL

a. Strike of Longshoremen (completed item)

The threatened strike of the Longshoremen is expected to continue in a maze of legal maneuvering and factional fights for control of North Atlantic shipping lines. At the end of the 80 day Taft-Hartley injunction period an election is to be held which will bring the issues to a head. Nevertheless, trouble may be expected during the interim period. It still appears there will be no tie-up at the Army Fort of Embarkation, Brooklyn, New York, the Naval Supply Depot, Bayonne, New Jersey, and the Air Force Transportation Control Depot, Port Newark, New Jersey.

e. Discussion of Transportation Plans and Problems with Representatives of SR Division (new item - completed)

Representatives of the SR Division met with representatives of the Transportation Division to discuss transportation plans, and problems that possibly might arise in the future. It was the consensus of opinion of those present that although most of the requests for shipment made upon the Transportation Division by the SR Division were of a crash or emergency nature, no major problems existed nor could any be foreseen in the near future.
